

Gissing Parish Residents' Survey Report Summary

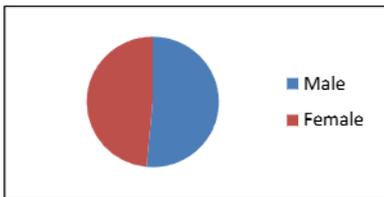

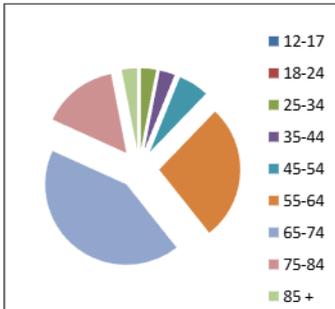

2019/2020

Thank you to all of you who took part in our Parish Survey.

This anonymous feedback has already helped to inform the current and future Parish Council Plans.

Below are just a few of the examples of outputs from the data & comments you supplied

Contributors to the Survey ranged widely in Age & Gender

Just a few of the notable aspects from the Survey

Housing

*Should be more development for younger generations to keep the village alive
Keep the character of the village as it is without additional housing
A mix of housing types should be sustainable in Gissing therefore housing to attract young people maybe beneficial*

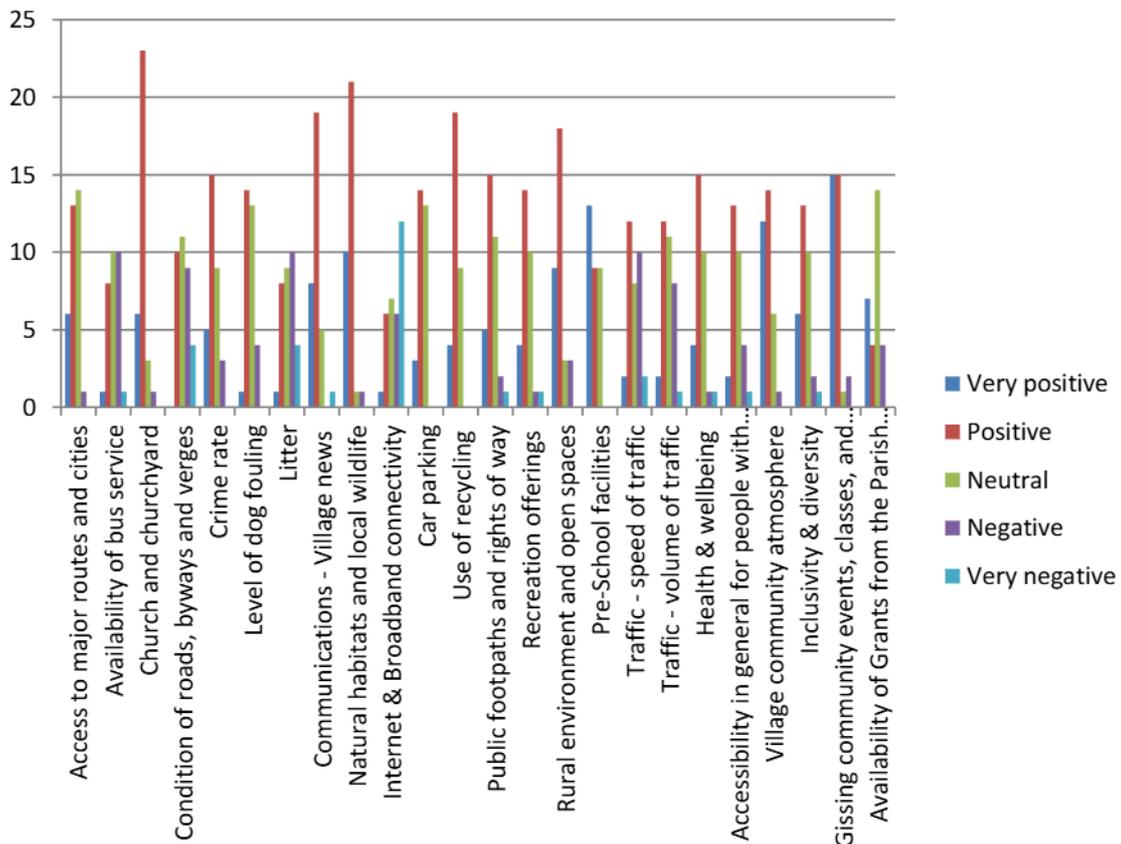

Transport

*Like the idea of community shared electric car scheme
Not enough buses at non school times
Need for a local alternative to care home for elderly*

Environment

*All inhabitants to care for the whole environment
Stop speeding on the roads into the village
Planting more trees to replace the many that are deceased and we have lost
Footpath signing on all paths
Community minded people continuing to pick up litter from verges when it is seen*
